

Inspiration Guide

1. **GATHER:** The materials required are base board, carbon paper, design template, paint (acrylic), adhesive, newspapers & a paint brush.

2. **ARRANGE:** Work on a thick layer cut newspaper. Place the hook side of base board down. Work on the side of base board that does not have hooks. Place design template over the board edge-to-edge, and slip the carbon paper in between the board and template.

3. **SECURE:** Secure the design template to fit the size of the board. TIP - Use paper binder clip/s to secure the board, carbon paper and design template in place.

4. **TRACE:** Use a pencil to trace the lines of the design template. Apply firm pressure and stick to the lines.

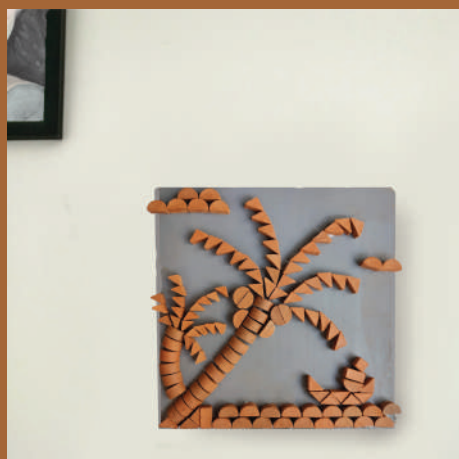

5. **PAINT:** Remove the design template and carbon sheet. Paint around the traced edges and the rest of the board as well.

6. **GLUE:** Carefully stick the Kattoos Terracotta Bricks with the adhesive provided over the traced shapes, as shown above. Use sufficient amount of adhesive.

Let the adhesive dry for at least 15 minutes.

7. **DISPLAY:** Rest your completed artwork on a shelf
OR
Hang it on a wall, using the hooks already provided on the back of the board.

NOTE : Due to natural property of terracotta:

Keep the artwork away from water at all times. Make sure the wall used for display is not damp.

Over time some bricks may fall away. Use the extra bricks provided in the pack to replace these, using any suitable adhesive.
